Virtual Reality Bear Spray Training

Experience a charging bear and learn how to effectively use bear spray in this realistic virtual world. We provide training for your staff in Wilderness Awareness and Bear Spray Training.

SITE ASSESSMENT

We provide Wildlife Specialists to assess site specific hazards regarding potential wildlife/ bear conflicts.

Service Includes:

- Inspection of your work areas
- Identification of hazards.
- Recommendations to reduce risk.
- Presentations

WILDLIFE MONITORING

Our wildlife monitors are trained and experienced in wildlife/human conflict determent using non-lethal methods. We provide 2-day wildlife monitor training courses. (Includes Course of Fire)

WILDLIFE SPECIALIST

Wildlife Specialists monitor your site, document wildlife activity, recommend hazard reductions. Conditioning wildlife using non-lethal methods to avoid human contact. Toolbox Talks and Presentations.

TRAINING

Let us train your staff on or off-site training.

- Wilderness Awareness 4-hour course (includes Virtual Reality Bear Spray)
- Virtual Reality Bear Spray 2-hour course
- Lunch & Learn (includes VR Bear Spray and Inert bear spray) Non certification course.
- Wildlife Monitor Training 2-day course
- Virtual Reality Programs

We can develop customized virtual reality programs for your site-specific needs.
