

# VIRTUAL REALITY SAFETY TRAINING

Our VR Bear Safety Training Program is a new, innovative way to educate users. Virtual reality enhances learning by engaging users through physical interactions in virtual worlds that present real life situations.

Through the physical action within the VR system, users are learning in an exciting, realistic environment. While wearing virtual reality goggles, the user is transported to a digital forest where the software simulates a bear encounter in the woods. This is as "real" as it gets without being in a dangerous encounter. Experiencing this in the virtual world can enable the user to react effectively, reducing the risk and harm to both humans and wildlife.

There are two options to bring virtual reality training to you:

- 1) We do the training.
- 2) Purchase the system

## TRAINING OPTIONS

### Standard Bear Awareness Training Course

This is a 4 hour course, led by one of our certified trainers is designed to prepare individuals to stay safe in bear country. This course provides information on: preparing to go into bear country, bear identification, bear signs, deterrents, and what to do if you encounter a bear as well MSDS for bear spray. The course is enhanced by the use of our Virtual Reality Bear Spray Training system and interactive instructional methods (eg. virtual reality, judging distance, holstering)

The cost is \$1500.00 for up to a maximum of 10 people or \$3000.00 for a up to a maximum of 20 people, plus applicable taxes, travel & accommodation costs. The outcome of the course provides Bear Awareness & Bear Spray Certification.

### Stand-Alone Virtual Reality Bear Safety Training Course

This is a 2 hour course, led by a certified trainer and is designed to teach users how to effectively use bear spray including: judging and deploying at the correct distance, assessing wind factors, holstering and carrying bear spray, proper deployment techniques. The classroom is divided into groups that move from station to station learning the course content and experiencing the VR program. Module or station instructional methods encourage learning and retention by actively engaging users.

The cost is \$1500.00 for a maximum of 10 people or \$2500.00 for maximum 20 people, plus applicable taxes, travel & accommodation costs. The outcome of the course provides Bear Spray Certification.
